PSC APPROVES AMENDMENT TO WATER TERRITORIAL AGREEMENT

JEFFERSON CITY—The Missouri Public Service Commission has approved a second amendment to a previously-approved territorial agreement between Public Water Supply District No. 10 of Boone County and the City of Centralia concerning territory within Boone County; specifically areas northwest and south of Centralia.

The agreement involves the transfer of two tracts of land from the District to the City's service area. Neither tract currently has water service. The joint application states no existing customers will have their water service changed if the amendment is approved.

After a thorough review of the evidence filed in this case, the Commission determined that the territorial agreement is in the public interest and should be approved.

Background: The Commission first approved a written territorial agreement between the entities in February of 2002. The Commission also approved an amendment to that territorial agreement in November of 2004.
